y position

direction

## LOOKS

say Hello! for 2 seconds

say Hello!

think Hmm... for 2 seconds

think Hmm...

switch costume to costume2 ▼

next costume

switch backdrop to backdrop1 ▼

next backdrop

change size by 10

set size to 100 %

change color ▼ effect by 25

set color ▼ effect to 0

clear graphic effects

show hide

go to front ▼ layer

go forward ▼ 1 layers

costume number ▼

backdrop number ▼

size

## SOUND

play sound Meow ▼ until done

start sound Meow ▼

stop all sounds

change pitch ▼ effect by 10

set pitch ▼ effect to 100

clear sound effects

change volume by -10

set volume to 100 % volume

## EVENTS

when green flag clicked

when space ▼ key pressed

when this sprite clicked

when backdrop switches to backdrop1 ▼

when loudness ▼ > 10

when I receive message1 ▼

broadcast message1 ▼

broadcast message1 ▼ and wait

wait 1 seconds

repeat 10

forever

if then

if then else

wait until

repeat until

stop all ▼

when I start as a clone

create clone of myself ▼

delete this clone

## CONTROL

wait 1 seconds

repeat 10

forever

if then

if then else

wait until

repeat until

stop all ▼

when I start as a clone

create clone of myself ▼

delete this clone

## SENSING

touching mouse-pointer ▼ ?

touching color ?

color is touching ?

distance to mouse-pointer ▼

ask What's your name? and wait

answer

key space ▼ pressed?

mouse down?

mouse x

mouse y

set drag mode draggable ▼

loudness

timer

reset timer

backdrop # ▼ of Stage ▼

current year ▼

days since 2000

username

## OPERATORS

+ - \* /

pick random 1 to 10

> 50

< 50

= 50

and

or

not

join apple banana

letter 1 of apple

length of apple

apple contains a ?

mod

round

abs ▼ of

## VARIABLES

my variable

set my variable ▼ to 0

change my variable ▼ by 1

show variable my variable ▼

hide variable my variable ▼

list

add thing to list ▼

delete 1 of list ▼

delete all of list ▼

insert thing at 1 of list ▼

replace item 1 of list ▼ with thing

item 1 of list ▼

item # of thing in list ▼

length of list ▼

list ▼ contains thing ?

show list list ▼

hide list list ▼

## MY BLOCKS

define my block my block

define my block boolean

my block boolean

define my block number or text

my block number or text

# Project Editor

My Blocks

**Text to Speech**  
Make your projects talk.

Requires  Collaboration with Amazon Web Services

speak hello

set voice to alto ▼

set language to English ▼

**Translate**  
Translate text into many languages.

Requires  Collaboration with Google

translate hello to Indonesian ▼

language

**Video Sensing**  
Sense motion with the camera.

when video motion > 10

video motion ▼ on sprite ▼

turn video on ▼

set video transparency to 50

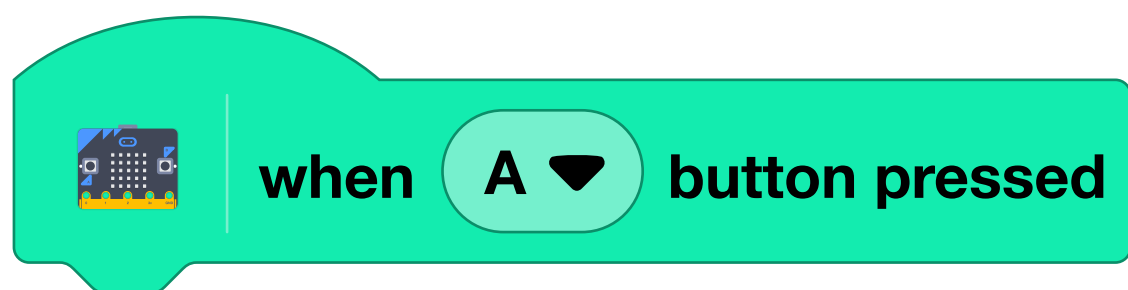

Add the extension. Or you can use the keyboard key and mouse click blocks, like the “when \_ key pressed” Event block, as an alternative.

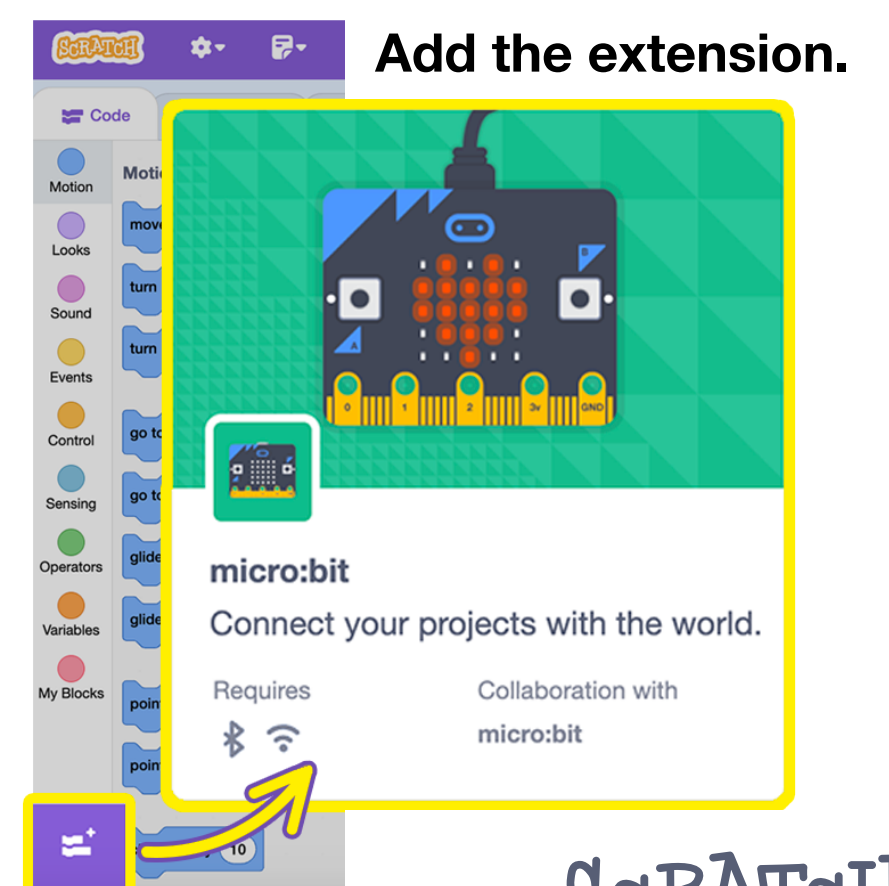

Connect one alligator clip to “EARTH” and another to a keyboard key. Close the circuit (to make the program register that keyboard key was pressed) by touching both the key and EARTH clips.

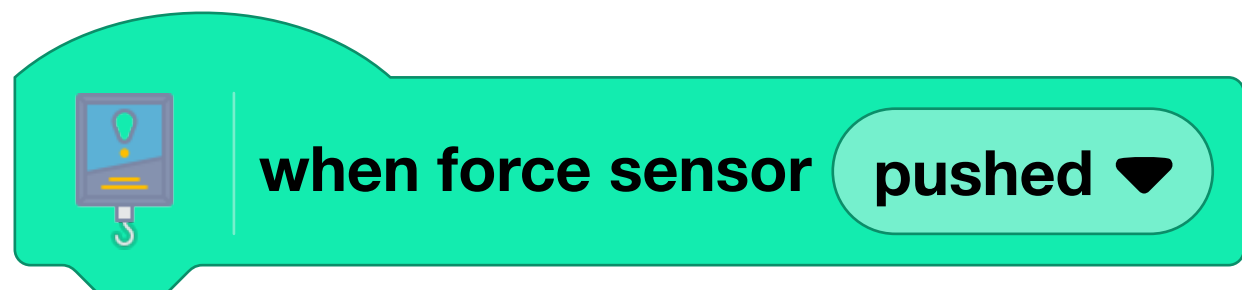

# and micro:bit

Start Scratch Link and enable Bluetooth.

Scratch works with v1 and v2 (shown) micro:bit versions.

Power on the Vernier sensor.

Start Scratch Link and enable Bluetooth.

Add the extension.
